

# ATTENTION

Please join with us in abiding by the following guidelines as outlined in the Tennessee Pledge documentation

Please DO NOT enter if you:

- Have a temperature of 100+
- Are experiencing a cough, shortness of breath, or sore throat
- Have had a fever within the past 48 hours

Per the guidelines, we can operate at 100% of our rated capacity (92), but we currently have seating for around 65 guests inside to maintain proper distancing. When weather allows, we are also offering outside seating for an additional 8-10 customers. If you want to dine in with us, there must be an available seat for everyone in your party. If there are no available seats and you wish to wait outside or in your vehicle, please give your name and number to a member of our bar staff. We cannot seat parties larger than 10 persons.

In order to maintain appropriate social distancing guidelines, please do not move or rearrange tables and/or chairs from their current positions without staff permission.

*Thank you for your patronage and understanding!*

# WHAT WE'RE DOING TO ENSURE A SAFE ENVIRONMENT

- Screening all employees for any sign of fever or illness both when they report for work and regularly during their shift
- Requiring employees to self-report any positive Covid-19 test results within their household
- Stressing to everyone the importance of frequent and thorough handwashing
- Carefully arranging seating to maintain appropriate social distancing standards
- Providing single-use plates, napkins, cutlery, and condiment packets to limit the potential for virus and germ transmission
- Replacing table menus with a wall menu visible from any seat in our taproom
- Adhering to strict surface sanitization regimens
